8 Steps to Optimize Your Website with SEO

Key Benefits of SEO

1. Keywords

Start by researching and selecting your keyword research is crucial. What does your target audience search for?

2. Title Tags

The title tag is the most important on-page SEO factor. It's the first thing users see in search results. 60 character limit.

3. URL

The best URL is readable and descriptive. Use the word page.

TradeGecko Inventory System - For Your Growing Business
Inventory management is a critical business function. TradeGecko's Inventory System is a powerful tool for growing businesses. It helps you manage your inventory, track sales, and improve your bottom line.

4. Header Tags

Header tags (H1, H2, H3) are used to structure your content. They help search engines understand the hierarchy of your content.

5. Internal Links

Internal links connect different pages on your website. They help search engines crawl your site and improve user navigation.

6. Image Attributes

Image attributes (alt text) describe the content of an image. They are important for accessibility and SEO.

7. Body Copy

Search engines analyze the text on your website to understand its content. Use relevant keywords naturally in your body copy.

8. Meta Descriptions

Meta descriptions are short snippets of text that appear below the title tag in search results. They should be compelling and include relevant keywords. 160 character max.

Investing in SEO is more important now than ever before.
